## Grial UI Kit 3

Screenshots of the Grial UI Kit. Grial is a set of user interface templates carefully crafted in XAML, ready to boost your productivity and improve the quality of your project. You can create apps, mobile apps, websites and more with the Grial UI Kit. You can easily change elements in templates with a simple drag and drop and change custom properties like color, font size, size, etc. You can view all elements and their properties in the Properties dialog box which is an option to help it's up to you to determine which properties you want to change.
